NACD Announces Miles Chemical Company Passes RDP Document Verification

The National Association of Chemical Distributors (NACD) is pleased to announce that Miles Chemical has successfully passed NACD's Responsible Distribution Process (RDP) Document Verification. Successfully demonstrating the implementation of EHS&S policies and procedures under RDP's Code of Management Practice (to an independent third-party verifier) has been a condition of membership in NACD since 1997.

"Today's economic environment is of concern to the chemical distribution industry," said NACD's President Chris Jahn. "All NACD member and Affiliate companies that successfully pass RDP not only demonstrate their commitment to environmental, health, safety, and security measures, but are better positioned to face today's challenges. We are pleased to welcome Miles Chemical as a new Member."

For more information on NACD's on-site RDP Verification process and for a listing of members in good standing, visit NACD's Web site at www.nacd.com.

NACD and its more than 250 members have established themselves as leaders in health, safety, security, and environmental performance through implementation of the Responsible Distribution Process (RDP), established in 1991 as a condition of membership in NACD. Incorporated as a condition of membership in January 1999, NACD members undergo third-party on-site RDPV – RDP Verification. For additional information, visit NACD's Web site — <http://www.nacd.com>.
